## Why is the Station Shuttle so important?

Tirol Tourist Board and Four Seasons Travel transfer service providers have joined forces to create the environmentally friendly Station Shuttle service as part of the “Tirol by Rail” project. It is imperative that the mobility chain of those travelling car-free functions well, including the final mile from the railway station to the holiday destination. Visitors will only consider making the shift from car to rail transport if a seamless service is provided, making public transport the most attractive alternative.

## Station Shuttle Service for All!

The Station Shuttle Service is available to visitors and locals alike. Anyone can take advantage of the door-to-door transfer service to and from your destination to any major train station. The train station transfer must be booked online no later than 48 hours prior to your intended departure time.

## Bravo!

Tirol Werbung and Four Seasons Travel have received the 2018 Mobility Award from Verkehrsclub Österreich (Austrian Traffic Club) for their Station Shuttle Tirol service. This initiative is the source of much interest in other provinces throughout Austria.
